

Dear Fox Chase Townhomes:

Foxbridge
Glen Burnie, MD 21061

Greetings :

This is a courtesy reminder that your upcoming service with American Pest will take place on the following date: **06/01/2023**. If you will not be on-site for the service, please ensure adequate access is provided to the property. For our technicians' safety, please secure all pets on the day of our expected arrival. Thank you for the opportunity to continue to service your location!

Your American Pest experience might look a little different as we navigate the ongoing changes resulting from the Coronavirus. We understand your concern, and there's no need for us to come inside if that's your preference. We'll perform your routine maintenance outside on the above date—where pests are entering your facilities—and should you need additional service on the interior in the coming weeks, we would be happy to come back out at no additional cost to you.

American Pest is now offering disinfecting and sanitation services throughout the District of Columbia, Maryland and Virginia. This treatment is approved by the Environmental Protection Agency (EPA) as an effective treatment method to sanitize infected areas of Coronavirus (COVID-19) and bacterial infections. Disinfecting treatments are a fast and comprehensive solution for homeowners, schools, office buildings, government facilities, and apartments and other industries.

If my business is closed or has limited access, can you still come and service?

We absolutely can! We are happy to accommodate your scheduling needs by agreeing on a window of time that works for you to meet us at the business (or) conduct an exterior perimeter treatment.

Thank you for your continued patronage!

Stay healthy and safe,

American Pest
