

IMPROPER WASTE DISPOSAL

Dear Residents of Foxchase Community,

We are writing to address a growing concern that has come to our attention regarding the improper disposal of trash within the Foxchase Community. It has been observed that some residents have been disposing of their waste, and grass cuttings in the woods behind their homes or in the neighborhood, which has led to a potential rodent problem in our area.

We would like to emphasize the importance of proper waste management and highlight the potential consequences of improper trash disposal. Rodents are attracted to areas with readily available food sources, and the presence of trash provides an ideal environment for them to thrive.

To maintain a clean, safe, and pest-free environment in Foxchase, we kindly request that all residents adhere to the following guidelines:

1. Please dispose of all household waste in designated trash bins or containers. Ensure that the bins are securely closed to prevent rodents from accessing the contents.
2. Do not throw any trash, including food waste or grass cuttings, into the woods behind your homes or in the neighborhood.
3. Any resident found in violation of proper trash disposal practices will be subject to fines as per the community guidelines and regulations.

By adhering to these guidelines, we can collectively create a clean and healthy environment for everyone in Foxchase. Let us all take responsibility for our community's well-being and demonstrate our commitment to fostering a harmonious living environment.

Thank you for your cooperation and understanding. If you have any questions or require further assistance regarding waste management, please do not hesitate to contact Brodie Management 410-571-1400
